R&D TAX CREDIT

Software and Technology

Black Line Group is passionately committed to your success by helping reduce your tax liability. Many companies are unaware the government is offering a generous incentive to those that qualify. The incentive is the Research and Development (R&D) Tax Credit. Black Line Group will facilitate the process to help make your business more competitive, grow faster and be more profitable.

Black Line Group understands the industry

With over 30 years of living in the trenches experience, we have the practical hands-on knowledge to understand and uncover all allowable R&D credits. At the conclusion of the study, we provide a robust deliverable detailing the results.

What activities qualify for R&D Tax Credits?

The definition of R&D activities is much broader than most people realize. Examples may include the following:

- Developing new or improved software
- Developing program or feature enhancements
- Integrated software solutions
- AGILE & Sprint development
- Requirements analysis
- Front-end and back-end testing and development
- Functional, unit, integration, system, acceptance testing
- Application programming and integration
- Information architecture evaluations

Focus - Integrity - Collaboration - Delight
